Quick Start Guide

CP200 Touch Tablet Time Clock

Let's Set Up Your Time Clock in 4 Easy Steps

1 Create your CloudPunch Account

Go to Signup.MyCloudPunch.com, enter your Activation Code from the sticker under the lid, and set up your CloudPunch cloud account.

2 Power on your Clock

Power the clock on by plugging it in to a power source, and a LAN cable if desired.

3 Connect and Set up your Clock

Follow the easy on-screen instructions to connect to the internet and pair the clock with your CloudPunch account.

4 Mount and Start Punching

Use the provided mounting hardware to mount the clock if desired. Your CP200 time clock is now ready to register your employees with RFID, Fingerscan, or PIN, and start punching!

The Most Powerful
Workforce Management System...

Without the High Costs

CloudPunch Time Clocks require an affordable monthly subscription to utilize its powerful cloud software. No matter how many employees you have, CloudPunch will save you time, money, and valuable resources by automating everything.

1-5 Employees	6-19 Employees	20-39 Employees	40-99 Employees	100-149 Employees	150+ Employees
$12/Mo	$28/Mo	$56/Mo	$100/Mo	$160/Mo	$250/Mo

All monthly cloud subscription plans are designed for the use of two active time clocks. Add $10 per month for each additional time clock over two. Plus tax where applicable.
